

Sections 8.09 and 8.10, as well as any Architectural Guidelines or specifications adopted by the Board concerning such alterations **will be strictly enforced, prospectively.**

Accordingly, the Board has adopted the attached Resolution which is intended to “draw a line in the sand” and while generally providing notice that all of the provisions of the Association’s Governing Documents, shall be strictly and uniformly enforced. A copy of the Board’s Resolution is attached for your files. If you currently have a temporary structure, accessory structure or other improvement that was installed prior to the date of the enclosed Resolution that was not approved by the Association, please send the Association written confirmation of the same so that the Board has an accurate accounting of all previously installed “improvements.” This will allow for the Association to maintain a record of such improvements, which will aid in future enforcement of these matters.

The restrictions contained in the Association’s Governing Documents are made for our collective benefit. We must follow the terms of the Governing Documents as presently set forth.

Sincerely,

**BOARD OF DIRECTORS  
CITRUS GREENS AT ORANGE TREE  
HOMEOWNER’S ASSOCIATION, INC.**
